**PowerShell Conference Europe**

---

# **Meet Microsoft Entra PowerShell**

---

*Aleksandar Nikolić | Microsoft MVP*

# Many thanks to our sponsors:

# Aleksandar Nikolić

- PowerShell and Azure trainer
- Microsoft Azure MVP
- Co-founder of [powershellmagazine.com](https://powershellmagazine.com)

# Microsoft Entra PowerShell

- Created to simplify complex tasks and enhance usability
- Doesn't compete with Microsoft Graph PowerShell
- Both modules work well together
- Helps to improve Microsoft Graph PowerShell

# Microsoft Entra PowerShell

- Keeps all the benefits of Microsoft Graph PowerShell SDK for:
  - authorization
  - error handling
  - (low-level) API coverage
- Provides significant compatibility with the legacy modules

# When to use which PowerShell module

Area	Microsoft Graph PowerShell	Microsoft Entra PowerShell
Use case	low-level, flexibility	scenario-based
Usability	developer focused	IT Pro focused
Freshness	always-current	Follows Microsoft Graph releases
Coverage	comprehensive, across Graph	Microsoft Entra resources
Generation	autogenerated	human-authored
